[DEMO 30 seconds] How to add channels to You Play Player

The screenshot shows the Audacity audio editor interface. At the top, there is a menu bar with options: File, Edit, Select, View, Transport, Tracks, Generate, Effect, Analyze, Tools, Help. Below the menu is a toolbar with various icons for playback (stop, play, record, previous, next), editing (erase, copy, paste, undo, redo), and analysis (waveform, spectrogram, zoom). The main workspace displays two stereo channels of an audio track. The left channel is labeled 'L' and the right channel is labeled 'R'. The waveform shows a complex audio signal with a prominent peak around the 15-second mark. The amplitude scale ranges from -1.0 to 1.0. The track is labeled 'DEMO 30 se' and has a duration of 30 seconds. The interface also shows a 'Mute' and 'Solo' control for the track, and a 'Select' button at the bottom left.

The image shows a YouTube video player interface. The video title is 'Little Idea' and the duration is 2:49. The video player shows a play button and a progress bar at 00:00. There is an information icon and a 'DOWNLOAD' button. The video description reads: 'Childish royalty free music track featuring glockenspiel, pi...'. The video player is set against a background of a lightbulb with wings, symbolizing an idea.

The screenshot shows the Audacity transport controls. The 'Project Rate (Hz)' is set to 44100. The 'Snap-To' is set to 'Off'. The 'Start and End of Selection' is shown as '00 h 00 m 00.000 s' to '00 h 00 m 00.000 s'. The 'Actual Rate: 44100' is displayed at the bottom right.
